PROFESSIONAL SUMMARY

Senior Software Engineer with 2.5+ years of experience specializing in Angular, building scalable responsive web applications and reusable UI components for enterprise products. Working knowledge of Go and Cassandra for server-side issue resolution and debugging. Strong collaborator across frontend and backend teams with a focus on clean code and performance. Passionate about learning new technologies and delivering efficient, scalable solutions.

TECHNICAL SKILLS

Frontend & Web: Angular, TypeScript, HTML, CSS, JavaScript, Bootstrap, Responsive UI Design, CMS, Basic SEO optimization

Backend & Databases: Golang, MySQL, Cassandra, REST APIs

Tools & Practices: AIOps, Figma, Git

Domain Knowledge: IT Service Management (ITSM), IT Asset Management (ITAM), Security Operations (SecOps)

Endpoint & Systems Management: Remote Monitoring & Management (RMM), Endpoint Detection & Response

WORK EXPERIENCE

Algomox Private Limited - Bangalore, Karnataka

Senior Software Engineer (Nov 2025 – Present)

- Contributed to Endpoint Detection and Response (EDR) capabilities within the **Data Loss Prevention (DLP)** framework, implementing controls to detect and prevent unauthorized data exfiltration from monitored endpoints
- Built a fully scalable **OS Image Management UI** using Angular and Bootstrap, with server and agent integration over WebSocket to support Golden Image capture, wipe-and-load and PXE-based ISO installation
- Developed a **Remote Monitoring and Management** module with secure remote screen access, action recording, file transfer, and session tracking, enabling operators to debug user-reported issues across the organization.
- Delivered feature development based on customer requirements, along with major bug fixes across UI and server-side components, ensuring stability and a smooth user experience

Software Engineer (Dec 2023 – Nov 2025)

- Developed an **Asset and Compliance Management** module covering the complete asset lifecycle, with detailed hardware/software asset views, compliance and ownership dashboards, and policy enforcement aligned to organizational standards
- Built interactive, responsive UI components for an enterprise **AIOps** web application using Angular, delivering feature enhancements and bug fixes to improve functionality and user experience

PROJECTS

- Paybus Application Frontend (Angular UI) • [E-Commerce Crackers Website](#) • [Business Website](#) for a Startup
- Automatic On-Duty Generation Website (HTML, CSS)

ACHIEVEMENTS

- Semi-finalist, The Inventors Challenge 2023 (AICTE & STMicroelectronics) — presented a prototype Smart Stethoscope with AI assistance at ICETITE 2024 for real-time heart and lung sound analysis (Jul–Nov 2023).
